

Co-funded by

ORIX NZ EVi

ORIX NZ EVi (Electric Vehicle initiative) is a programme where ORIX NZ offer businesses the opportunity to upgrade to a selected Electric Vehicle at the same lease rate as the fossil fuel equivalent and install a charging unit free of charge.

As a valued leasing partner ORIX NZ is always looking for ways to help our clients achieve their sustainable goals. Thanks to the Government's Low Emission Vehicles Contestable Fund, administered by the Energy Efficiency and Conservation Authority (EECA), ORIX is now able to offer ORIX NZ EVi.

How does it work?

All businesses who lease or finance a minimum of 10 vehicles with ORIX NZ, and meet all other participation criteria, are eligible to apply for the EVi programme. This is also open to businesses who want to start leasing vehicles with ORIX and meet the participation criteria.

You can lease a brand new VW e-Golf, Hyundai IONIQ EV or BMW i3 at the same ORIX lease rate as the fossil fuel equivalent. We will install one slow charger in your place of work (up to a maximum value of \$2,700 incl. GST) free of charge and open your business a charge net account pre-loaded with \$500 incl. GST.

This offer is only available for selected electric vehicles on a minimum 3 year non-maintained operating lease.

Participation Criteria

ORIX NZ EVi requires each business to meet certain requirements to be eligible for the Electric Vehicle upgrade:

- **Sign ORIX's Master Fleet Agreement**
This is a requirement for all ORIX vehicle leasing customers.
- **Sign ORIX NZ EVi provisions**
- **Lease at least 10 vehicles with ORIX NZ.** EVi upgrade is applicable on the 11th leased vehicle.
- **Meet ORIX's credit criteria**
- **Electric Vehicle upgrade is only available for the following NZ new fully Electric Vehicles:**
 - VW Golf for an e-Golf
 - Hyundai i30 for an IONIQ EV (Entry)
 - BMW 1 Series for an BMW i3

If you are interested in ORIX NZ EVi and can meet all the participation criteria then contact one of the ORIX team to help you get set up.
