MANAGING YOUR COMPANY FLEET?

# YOU NEED ORIX NOVATED LEASING

The ORIX Novated Lease option allows employees to choose the vehicle they wish to drive, pay for it through pre-tax salary deductions, and make an offer to purchase it at the end of the lease.

# HOW IT WORKS

## How Novated Leasing Benefits Your Company

- All employees can lease a vehicle of their choice and pay for it through pre-tax salary deductions, increasing their after-tax remuneration.
- No minimum business use requirement and not restricted to one vehicle per employee.
- No risk. If your employee resigns, lease obligations automatically transfer to the employee.
- Your employees save further by accessing ORIX buying power for vehicles, maintenance, tyres and fuel.
- ORIX provides all the necessary salary package (including FBT) calculations and reporting for your payroll department.
